## Details of Disappearance

Isensee was last seen near the 200 block of Glendale Avenue in Tomah on the evening of June 1, 2016. He has never been heard from again. Kraig may have been killed over drug-related issues. There are suggestions that he could be in witness protection, possibly as a criminal informant. A person associated with the Wisconsin Dolls Club (where Kraig frequented) reportedly attempted to shoot him in the parking lot before he vanished. During a party, a woman connected to the club made a comment about Kraig's remains being disposed of by being fed to pigs. The theories surrounding Kraig's case heavily involve connections to the Wisconsin Dolls Gentleman's Club.
