## Details of Disappearance

Dakota disappeared with his mother, Dayna Menger, and her friend, Junelle Marquard. They were last seen in Nekoosa when they dropped Dayna's four-year-old daughter off at the babysitter's home. The women left with Dakota, without saying where they were going or what they planned to do.

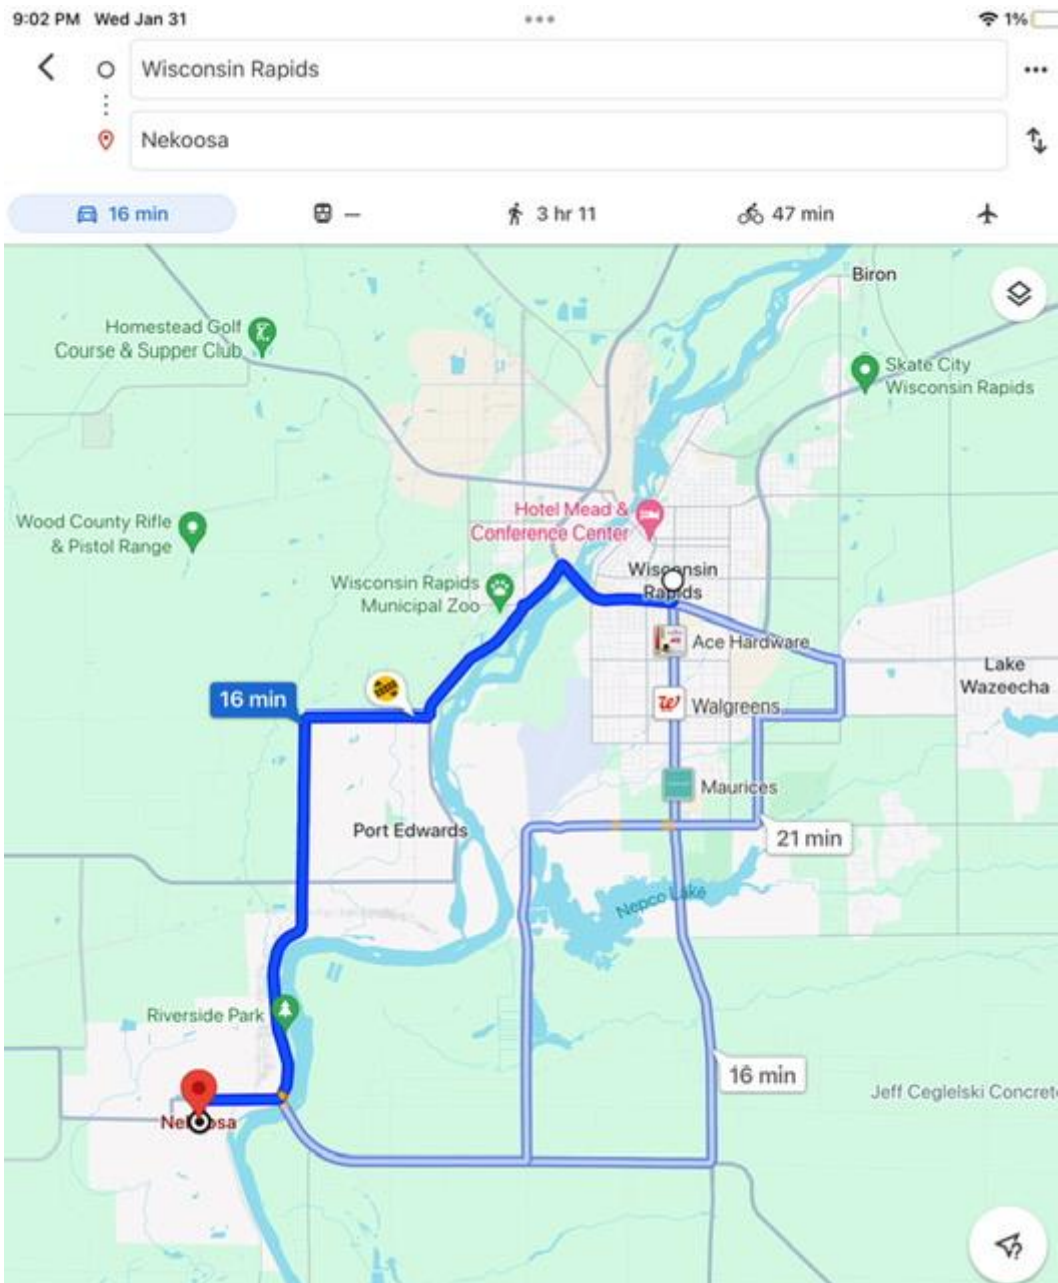

When Dayna didn't return to pick up her daughter as scheduled, the babysitter wasn't initially concerned; it wasn't uncommon for Dayna to leave the child at the babysitter's house for days at a time. But she never returned.

Although they went missing in 1999, it wasn't until 2004 that the police were informed when Dayna's brother reported her missing. Foul play is a possibility in their disappearances. Dayna's loved ones do not believe that she would have abandoned her children.
